MUNSON & McNAMARA.

NOW, JUST LOOK HERE.
Note These Prices And Make No Mistake!

I am going to make this offer for six days, and six days only, commencing Monday, November 19, 1888. My object in doing this is to bring you to my store and show you the difference between my prices and the prices you have seen at other places, where perhaps they have told you they are selling at cost.

The reason I can sell so much cheaper than they can is simply because I have a way of getting goods for about one-half the price they are paying for the same goods. Here are a few of the bargains I shall offer:
Twelve ladies' solid gold watches, stem wind, for \$20 each. After this week the same watch will cost \$30 at my store and \$40 at any other store in the state.
This week I will sell one set of Rodgers' silver plated knives for \$1.50, but only one set to one person. Others sell the same goods at just twice the money, \$3.00, and after this week they will cost \$2.00 at my store. One hundred alarm clocks, \$1.00; same without a arm 75 cents; sold by others at \$2.00. Also a great many other bargains just as good as these, such as gents' gold filled watches, solid gold watches, solid silver watches, etc.

In fact everything in the store will be marked down.
I am getting ready for the holidays, and shall put on holiday prices on my goods after this week.
I know it is muddy and hard getting out, and that is just the reason I am going to start this sale.

I know business will be dull unless I offer great inducements.
I must raise a large amount of money and propose to sell goods at prices that will do this.

COME AND SEE ME THIS WEEK AND YOU WILL ALWAYS BE GLAD.

A. A. POST,

CARELESS MINERS.

FURTHER INVESTIGATION OF THE FRONTENAC DISASTER.

The Explosion Caused by Reckless Handling of Powder Used for Blasting.

Mine Operators Taking Precautions to Prevent Like Casualties—State Corporations Chartered.

Bardon Appeals for Better Railway Connections with the Kansas Metropolis—Kansas Matters at the Capital—Other State Items.

PARSONS, Kan., Nov. 24.—The investigation of the recent Frontenac coal mine horror developed the fact that the principal element in the explosion was a number of open kegs of powder which were ignited by a blow-out shot. An old miner today, who had been employed in the Pittsburg, Kan., mining district several years, and is familiar with all of the principal coal mines there, says the carelessness of the miners in handling powder is simply appalling, and many of the disasters attributed to gas and other like causes are really due to the improper handling of the powder furnished for blasting. Usually the older and more experienced miners are more careful, but, and nine times out of ten instead of unscrewing the top of his can and after taking out enough for his shot carefully screwing the top on again, he will punch a hole through the top with his pick. If he thinks of it he will stuff a piece of rag in the hole, if a rag happens to be handy. In fact, the open keg takes its chances when the shots are fired. He says he noted this act particularly in the Frontenac coal mines in the district above alluded to, the plan of employing men to fire the blasts after the miners are out of the shaft, and for taking care of the surplus powder.

A WINFIELD SENSATION.
KANSAS CITY, Nov. 24.—A Journal special from Winfield, Kan., says that A. L. Shultz, editor of the Winfield Visitor, was given a severe trouncing on the streets of that city tonight by C. A. Dunkle, a prominent business man. Dunkle had declined to contribute to a fund for the benefit of a woman mother of a general, and the Visitor contained an article abusing him for his action. This is the second time within the past year that Shultz has been assaulted.

LOYAL LEGION MEETING.
LEAVENWORTH, Kan., Nov. 24.—At a meeting of the council of administration of the Kansas commandery of the Loyal Legion, Col. J. A. Smith was elected to fill the vacancy occasioned by the resignation of Col. J. P. Martin, U. S. A.

WHY NOT BUILD IT?
HUBBARD, Kan., Nov. 24.—I have just made my regular trip to Burden and I must say I never in all my life saw a people so anxious as the people of Burden are for a railroad connection with the great city of the southwest, Wichita. It seems that a valley like this where wheat, corn, oats, and hay are raised in such abundance and of such excellent quality, also thousands of acres of the finest building stone waiting for development and which is only a stone's throw from Burden, demands the close attention of the business men and more especially the jobbers and packers of Wichita, for there is no section of country in all southwestern Kansas where the people want a connection worse and would do more toward helping to make it than the people of Burden would toward connecting themselves with Wichita. The finest corn raised in Cowley county is raised in the immediate vicinity of Burden.

He left the following words in a letter to his wife: "You will be better off in the end without me." Mr. Gilbert was estimated to be worth about \$50,000, and was liked by all who knew him.

He left home September 23, and was last seen three days later at Kansas City, since which time there has been no knowledge of him. Some allege foul play, while others say he has left the country. He is about 50 years old and came to Doniphan ten years ago from Elkhart, Ind.

THE KNIGHTS OF LABOR.
INDIANAPOLIS, Ind., Nov. 24.—The work of the general assembly of the Knights of Labor is slowly drawing to a close. This morning the general worthy foreman, Morris L. Wheat, of Iowa, who is ex-officio president of the general assembly, presented his nominations for members of that board as follows: H. A. Beckmeyer, of Newark, N. J.; John O'Keefe, of Rhode Island; Rudolph Kirchner, of St. Louis, and Oliver D. Benoit, of Montreal. The vote resulted: Beckmeyer (not given); O'Keefe, 70; Kirchner, 28; Benoit, 10. The election of delegates to the convention, the standing committee being appointed later by the general assembly.

Delegate Delwarte, of Belgium, read an address in French on the manner of organization of the order in his country, regarding the establishment of a co-operative bakery and the nomination of working men as members of the common council of arbitration. The committee on the slate of the order made its final report on minor matters of general interest. Also the last report of the finance committee was heard, advising a loan of requested funds to be locked out. Pennsylvania miners just secured a concession of finance permitted and the convention endorsed the advice as good.

The legislative committee favorably reported a resolution in support of a law placing a penalty of fine or imprisonment on gambling in wheat and other necessities, and the convention agreed to the report. It also adopted the recommendation of agitation in favor of Australian system of voting.

From the Massachusetts state assembly a resolution has been introduced in favor of a law requiring that five-eighths of the seamen in the American navy be native or naturalized citizens, and the vote on the resolution was 100 to 0. Over there were delegates present at the convention, and after some lively debating the resolution was referred back to the committee. On the ground of opposing the resolution, the standing committee will adjourn. When the dinner recess was taken today it was thought adjournment would be reached by Monday evening.

At the afternoon session the Knights of Labor the law committee took the floor and reported on a couple of propositions, at least one of which is of considerable importance. The first looked to the establishment of a system of jury trials in the order, but no action was taken on it. The other opened up the temperance question and a long discussion followed. A proposition to abolish the section in the constitution which provides that no intoxicants shall be sold at banquets or other entertainments of the Knights of Labor, was reported with the remark that the committee deemed it inexpedient. According to the present constitution saloon keepers are ineligible to membership in the order, and to get around this an amendment was presented to give leave for outsiders to sell liquors at such entertainments, but that members of the order as knights shall have no such privilege. The matter was warmly discussed on both sides, but an adjournment was taken before any action and it will be again taken up Monday.

T. R. Barry this afternoon gave to the press the text of a verbal reply in which he paid his compliments to the new administration of the order.

Mr. Barry speaks in Cincinnati tomorrow night and in a short time proposes to begin the organization of his brotherhood. The most hopeful of the delegates look for an adjournment Monday night, but others say it will be as early as all business can be completed. The most important matters are nearly all disposed of, and some of the delegates will leave for home as soon as they can get their mileage.

YALE WINS AT FOOT BALL.
NEW YORK, Nov. 24.—Yale won the ball game with Princeton at the polo grounds this afternoon. About 15,000 persons were present, the great majority being Yale sympathizers.

TROUBLE EXPECTED.

FURTHER COMPLICATIONS AT THE SAMOAN ISLANDS.

The American, British and German Consulates Closely Guarded by Platoons of Marines.

An Encounter Between German Sailors and an Englishman Occurs in the Streets of Apia.

The Steamer "Boston" Arrives at New York With News of the "Haytian Republic" Difficulty—Panama Items—General News.

SAN FRANCISCO, Cal., Nov. 24.—The steamer Mariposa, from Sidney and Auckland has arrived here. The correspondent of the Associated Press at Apia, Samoa, writes as follows under date of November 6: "Matters are daily growing worse in Samoa instead of improving. The American and British and German consulates are guarded by platoons of marines from the men-of-war Adams, Lizard and Adler, respectively. The gardens are all fortified by sand bags piled on all sides to the height of three or four feet. The marines carry loaded muskets, and all persons approaching at night are halted before they can enter the buildings. This state of affairs went into operation October 24 and was caused by acts of the Germans whose attitude toward the Americans and English as well as towards the natives, is becoming unendurable. A patrol of the armed sailors from the German man-of-war Adler, travels the streets of Apia with loaded muskets and fixed bayonet every night. A few nights ago the patrol left two English gentlemen on one of the main streets, when one of the German sailors, without provocation, struck Mr. Ritchie, the Englishman, a heavy blow in the face, knocking him down. The Englishmen, who were not armed, did not resist the blow, but afterwards reported the affair to the British consul, Colonel Logan. Captain Logan of the English man-of-war Lizard, heard of the occurrence and visited the British consul for the purpose of determining what steps should be taken. On November 21, Tamsone is now camped with his followers, 1,700 in number, at Sainfoe, about 100 miles from Apia. He has built forts and rifle pits, and has taken the attitude of having been understood on both sides that a battle would take place early in November. Matafas men number 6,000 picked warriors, both sides are armed with repeating rifles.

THE BOSTON BRINGS FEVER.
NEW YORK, Nov. 24.—The United States steamer Boston, which was last reported at Port au Prince, Hayti, where she was sent when the Haytian government seized the American steamer Lysander, Republic, reached New York this morning and anchored in quarantine.

It is reported that the Boston returned from Hayti on account of yellow fever breaking out among her crew.
The following is the report of the United States steamer Boston as made to the ship news collector. The United States steamer Boston, Commander Ramsey, officers and men numbering 356, all told, left Port au Prince on November 16. Had strong northeast wind most of the passage. Surgeon Simon, French, died on the 18th. Charles Mitchell, ordinary seaman, is sick on board. John J. Kelley, apprentice, died November 21. E. J. Trapp, apprentice, died on the same day. On November 21 John Usselman, marine, died. On November 23 John Hentzelman, marine, died. The rest of the ship's officers and crew are quite well. Yellow fever is supposed to have been the cause of the sickness and deaths on the steamer.

The officers of the Boston decline to make any statement regarding the steamer Lysander Republic, recently seized by the Haytian authorities. They say the matter will have to be settled by the authorities at Washington.

THE "HAYTIAN REPUBLIC" MATTER.
NEW YORK, Nov. 24.—In relation to the Haytian Republic matter from a chat with one of the officers of the steamer Boston it seems that the Haytian Republic was captured while coming out of the harbor of St. Marc for trying to raise the blockade by the Haytian army. The Desaix, Captain Ramsey of the Boston, had several interviews and interceded with the president of Hayti, who refused to release the steamer and matter was referred to the secretary of state at Washington for final action.

PANAMA GOSSIP.
PANAMA, Nov. 23.—Upon the expiration of the term of President Nunez two years hence, the legislature will confer upon him an annual income of \$50,000. If Senor Pedraza, an electrician of Boyita, has patented a telegraphic instrument which he claims will revolutionize telegraphy, as it will work without batteries. The government has made successful tests.

MRS. HIBERARD BEATEN.
BEAVER, Pa., Nov. 24.—After being out thirty-six hours the jury in the famous Hibbard-Fry breach of promise case brought in a verdict this morning in favor of the defendant, and placing the costs on the prosecution. The announcement was received with applause. The plaintiff did not hear the news until informed by the reporters. At first she refused to believe it, but when told that the verdict had been heard in open court, she collapsed and exclaimed: "Oh, I can't believe it; that man Fry brought up the jury. I suppose we are all liars; I cannot say any more."

The costs are estimated at \$700, and may reach \$1,000. Mr. Fry and his daughter leave for New York on Monday and will sail for Europe on Wednesday. It has been learned that the only obstacle that prevented a speedy agreement among the jurors was the vexed question of costs.

THE IOWA EVICTIONS.
DES MOINES, Ia., Nov. 24.—The governor has decided to take a hand in the river land eviction and has sent the following:

DES MOINES, Ia., Nov. 23.
To Albert F. Clark, County Attorney, Western county, 71, Dodge.
Dear Sir:—Daily papers contain information that federal officers have evicted quite a number of river land settlers in your county and that more evictions will be effected in the near future. I take this opportunity to request that you satisfy yourself in every instance that only legal measures are resorted to by the marshal and his deputies, and that you promptly take necessary steps to restrain these officials if they should overstep their authority. Yours respectfully,
WM. LAURENCE.
